

Aedes Mosquito

Lay eggs in natural sources,
but prefer artificial containers

Common Sources:

Lay single eggs
on containers

Common Locations:

Urban areas
Backyards
Patios
Indoors
Landfills

Mosquito Egg Count

Take a look at the different sources and count
how many mosquito eggs you find. Write
down what you find in the chart below.

| Source | How many eggs did you count? | How many eggs in total? (after calculations) | How would you control the source? |
|--------|---------------------------------|--|--------------------------------------|
| | | | |
